Research Papers

Use of a weather radar for the hydrology of a mountainous area. Part I: radar measurement interpretation
H. Andrieu, J.D. Creutin, G. Delrieu and D. Faure 1

Use of a weather radar for the hydrology of a mountainous area. Part II: radar measurement validation
J.D. Creutin, H. Andrieu and D. Faure 26

Critical rainfall duration for overland flow from an infiltrating plane surface
B.H. Schmid 45

Exports of organic carbon in two river systems in NE Scotland
D. Hope, M.F. Billett and M.S. Cresser 61

Water balance and nutrient inputs in bulk precipitation in tropical montane cloud forest in Panama
J. Cavelier, M. Jaramillo, D. Solis and D. de León 83

Forest floor evaporation in a dense Douglas fir stand
M.G. Schapp and W. Bouten 97

Study of the mechanisms of evaporation under arid conditions using a detailed model of the soil–atmosphere continuum. Application to the EFEDA I experiment
G. Boulet, I. Braud and M. Vauclin 114

Evaporation from a raised peat bog
D.I. Campbell and J.L. Williamson 142

Environmental isotope study of the major karst springs in Damascus limestone aquifer systems: case of the Figeh and Barada springs
Z. Kattan 161

Distributed parameter hydrology model (ANSWERS) applied to a range of catchment scales using rainfall simulator data. III. Application to a spatially complex catchment
R.D. Connolly, D.M. Silburn and C.A.A. Ciesiolka 183

The assignment of drainage direction over flat surfaces in raster digital elevation models
J. Garbrecht and L.W. Martz 204

Modelling outflow from the Jao/Boro River system in the Okavango Delta, Botswana
A. Gieske 214

Forest evaporation models: relationships between stand growth and evaporation
D.C. Le Maitre and D.B. Versfeld 240

Trace element geochemistry of river sediment, Orissa State, India
K.O. Konhauser, M.A. Powell, W.S. Fyfe, F.J. Longstaffe and S. Tripathy 258

An improved dual porosity model for chemical transport in macroporous soils
C. Ray, T.R. Ellsworth, A.J. Valocchi and C.W. Boast 270

Evaporation from young secondary vegetation in eastern Amazonia
D. Hölscher, T.D. de A. Sá, T.X. Bastos, M. Denich and H. Fölster 293

Numerical simulation as a tool for checking the interpretation of karst spring hydrographs
L. Eisenlohr, L. Király, M. Bouzelboudjen and Y. Rossier 306

Impact assessment of climate change on the hydrological response of a snow and glacier melt runoff dominated Himalayan river
P. Singh and N. Kumar 316

Laboratory and in situ investigation of the isotopic ratio $^{79}Br/^{81}Br$ as a tracer of water migration in crystalline rocks
M. D'Alessandro, G. Bidoglio, F. Mousty, J.V.S. Benito and A.Y. De Llano 351

Fog deposition in tall tussock grassland, South Island, New Zealand
C.S. Cameron, D.L. Murray, B.D. Fahey, R.M. Jackson, F.M. Kelliher and G.W. Fisher ... 363
